

For HCPSS Internal Use Only

Tip Top Contract Service Area: Area 4

Supplemental Service

Vehicle Type	Hourly Rate (1.0 Hour Min) ₁	Wait Time (Hourly) ₂
Alternative Vehicle ₃ (MiniVan)	\$90.00	\$80.00
A	\$95.00	\$85.00
B (<i>price includes one Monitor</i>)	\$175.00	\$120.00
C	\$150.00	\$75.00
D	\$150.00	\$75.00
Monitor (all vehicle types)	\$25.00	\$25.00

Vehicle type requirements:

- **Type A**, up to 22 passenger capacity. A/C, no lift or W/C.
- **Type B**, 21 passengers or greater capacity. (Minimum 7 rows) 10,000 BTU A/C minimum. Capacity for up to 3 W/C. 1000 lb lift equipped. Minimum 18 ICS.
- **Type C**, minimum 64 passengers. Greater capacity up to 70+ passengers preferred. No W/C. A/C allowed but not required.
- **Type D**, minimum 64 passengers. Greater capacity up to 70+ passengers preferred. No W/C. A/C allowed but not required.
- **All type B/C/D** buses must have a second (rear) stop signal arm, strobing student warning and loading lights, and front student stop arm.

1 This hourly rate will be applied from the pickup location to the drop-off location and return and is inclusive of all live-time operating costs between those points, charged to the nearest 15-minute increment.

2 This hourly rate will be applied for all time that a contractor vehicle waits between drop-off and the commencement of the return trip, charged to the nearest 15-minute increment. The applicability of wait time is determined for each trip based on the requirements of the trip and the Contractor's quote for that trip.

3 As defined in COMAR 11.19.02 Maryland State Motor Vehicle Administration, MVA State Specifications, Title II, Department of Transportation, Subtitle 19 Motor Vehicle Administration - Alternative Vehicles
