Focus

This document will provide you with directions to review your current or upcoming compensation, as well as your compensation history since the 2019-20 school year.

Accessing Upcoming Compensation

1. In the Workday search box (top-middle of your screen), type "Compensation Review" and select "Compensation Review – Report" from the search results.
2. The "Compensation Review – Report" will display your current or upcoming compensation, as well as your compensation history since the start of the 2019-20 school year (or your hire date if after July 1, 2019).
3. The 2026-2027 compensation for 11 and 12-month employees has an "effective date" of July 1, 2026. For 10-month employees, it has an "effective date" of August 6, 2026.
4. As you review your compensation, please note:

- a. "Base Pay" is your base pay for the effective date.
- b. "Allowance Plans" indicates if you have any allowance plans (stipends, longevity, etc.) effective for the given date.

📧 Allowance plans, such as Instructional Team Leader stipends, location and certification-based allowances are related to an employee's assignment. **The presence or absence of these allowances may not be final.**

"Total Pay" is the total of your base pay and allowances.

 **NOTE:** A *Compensation Review* report with multiple compensation lines (with the same effective date) may indicate:

- A change in position (which could include a change in grade, salary table, and/or bargaining unit).
- Updates to allowances and supplemental pay (such as longevity, index pay, and stipends).
- Compensation lines display chronologically, beginning with most recent compensation actions. The lines with the most recent “effective date” are/will be in effect on that given date.
- Per the negotiated agreements, employees hired after April 1, 2026, do not receive negotiated step increases. For these employees, compensation for 2026-2027 remains on the same step as it was in 2025-2026 for the entire 26-27 fiscal year.
