School Planning –  
Attendance Area Adjustments  
Effective School Year 2020–2021

TO: All Staff

FROM: Scott Washington, Acting Chief Operating Officer

Elementary, middle and high school attendance area adjustments were approved at the Board of Education meeting on November 21, 2019. A transition process to inform and prepare students and their families for the change is underway. This transition process is being led by School Management and Instructional Leadership and Program Innovation and Student Well-Being. For information regarding the transition process, please refer to the FAQ section of the School Planning's webpage at <https://www.hcpss.org/school-planning/boundary-review/faq/>.

The School Locator on the HCPSS website now displays school assignments for school year 2019-2020 and changes effective for school year 2020-2021 for any valid street address. The School Locator shows geographic school assignments. Students may attend a school other than the assigned school for a variety of reasons, including exemptions to boundary changes (redistricting). Internal student information system (e.g., Synergy, INROADS, and TIENET) have also been updated with School Year 2020-2021 assignments. Parents/guardians can view their child's school next year at HCPSS Connect, which includes the parents/guardians selected exemption.

The following are attached for reference:

1. Text description of redistricted areas
2. Exemption information

Maps identifying the areas impacted by redistricting and the accompanying redistricting report with additional details may be found online at [https://go.boarddocs.com/mabe/hcpssmd/Board.nsf/files/BJJSU571463E/\\$file/11%2021%202019%20BOE%20Adopted%20Plan%20Final%20Reports%20and%20Maps.pdf](https://go.boarddocs.com/mabe/hcpssmd/Board.nsf/files/BJJSU571463E/$file/11%2021%202019%20BOE%20Adopted%20Plan%20Final%20Reports%20and%20Maps.pdf)

Please direct any questions about these items or school assignment to Renee Kamen, Manager of School Planning (x7184).
